Ductless and Ducted Mini-Split Heat Pump (DHP) Project Installation Form
For Single-family and Manufactured Homes. Not eligible for Multi-Family Homes (5 units and up)

All sections must be filled out by the installer at the time of installation. A copy of this completed form and the purchase receipt or invoice must be promptly submitted to Lower Valley Energy (LVE) in accordance with utility policy.

All systems must:
1. Be listed on BPA’s DHP Qualified Product List.
3. Be installed in accordance with manufacturer specifications, including adherence to proper refrigerant charging.
4. Meet all LVE requirements.

### What is being Installed? (Select One)

- Single Ductless Indoor Head
- Single Ducted Mini-Split
- Multiple Ductless Indoor Heads
- Multiple Indoor Ducted Mini-Splits
- Combination Ductless/Ducted Mini-Splits
- Ductless Heat Pump Upgrade

### Eligible Home Types (Select One)

- Existing Single Family
- Existing Manufactured
- New Manufactured
- New Single Family (in all states except WA)

### Eligible Existing Heating System Being Displaced (Select One)

- Electric Forced Air Furnace
- Electric Zonal

1. Ductless Mini-Splits do not include whole home centrally ducted systems. See PTCS Air Source Heat Pumps for information on whole-home centrally ducted systems.
2. Zonal heating includes electric, non-ducted: Ceiling cable, wall, baseboard, plug-in and an electric boiler/water heater attached to a hydronic floor heating system.

Total Installed Cost (before rebates): $ _____________ Additional repair cost (if low income): $ _____________

Rebates

- Existing single-family homes: Zonal electric heat precondition $650
- Existing single-family homes: Electric forced-air furnace precondition $650
- Existing manufactured homes: Zonal electric heat precondition (including new manufactured homes once on site for occupancy) $650
- Existing manufactured homes: Electric forced-air furnace precondition (including new manufactured homes once on site for occupancy) $650
- New single-family homes $400

PRIVACY ACT STATEMENT
Basic authority for collecting this information is authorized by 16 U.S.C. §§ 832 et. seq., and 838 et. seq., pursuant to Bonneville Power Administration’s Conservation Program system of records established in 46 FR 31700. This information is primarily intended to further, but is incidental to the performance of, BPA’s overall Energy Efficiency Program, the objective of which is to acquire energy resources through energy efficiency, to determine what cost-effective conservation and direct application renewable resources measures should be installed or adopted under different circumstances, and to provide incentives for the installation of such measures. Other routine issues of this information include aggregation into a public database on energy efficiency; furnished to authorized personnel for installation/repair of equipment; aggregated into a database for program publicity; and in some instances, information regarding buildings will be made available to subsequent purchasers of the buildings. Your disclosure of the requested information is voluntary; however, failure to provide requested information means that it will not be possible for you to participate in this BPA Energy Efficiency program.
