Here is how to qualify for a rebate

**STEPS**

1. Contact Lower Valley Energy (LVE)'s Conservation Department prior to starting your project to schedule a pre-inspection.
2. Install qualifying window(s). Must meet all Terms and Conditions and have a qualifying U-Factor.
3. Contact LVE’s Conservation Department for post-inspection.
4. Provide LVE with completed rebate application, Commercial Window Project Form, copies of the final invoice(s) and/or receipt(s), and the NFRC Stickers* showing the U-Factor rating for each window(s) installed.

*Example of NFRC sticker

Terms and Conditions

- Businesses must be served by Lower Valley Energy (LVE).
- Must have permanently installed electric heat system capable of heating entire building.
- This program is for existing commercial buildings/retrofits. Not available on new construction.
- Pre-inspection and pre-approval by LVE is required prior to any installation.
- Pre-existing windows must be: (1) single-pane, any frame type or (2) double-pane, metal frame.
- New windows must have a minimum U-Factor of 0.30
- Replacement installation that result in increased window area is not allowed under this program.
- Rebates will not be paid without all required documentation including rebate form, project information form, copy of invoice(s) and/or receipt(s), *NFRC stickers or other proof of U-Factor.
- Post-Inspection to verify installation and specifications have been met
- All incentives payments are made directly to the LVE member.
- LVE reserves the right to change or discontinue these rebates without notice due to funding.

Current Program Offerings

$15.00 per sq. ft of glass replaced
I certify that window(s) were purchased and installed at the above address. I will allow a representative of LVE to verify installation.

PRIVACY ACT STATEMENT Basic authority for collecting this information is authorized by 16 U.S.C. §§ 832 et. seq., and 838 et. seq., pursuant to Bonneville Power Administration’s Conservation Program system of records established in 46 FR 31700. This information is primarily intended to further, but is incidental to the performance of, BPA’s overall Energy Efficiency Program, the objective of which is to acquire energy resources through energy efficiency, to determine what cost-effective conservation and direct application renewable resources measures should be installed or adopted under different circumstances, and to provide incentives for the installation of such measures. Other routine issues of this information include aggregation into a public database on energy efficiency; furnished to authorized personnel for installation/repair of equipment; aggregated into a database for program publicity; and in some instances, information regarding buildings will be made available to subsequent purchasers of the buildings. Your disclosure of the requested information is voluntary; however, failure to provide requested information means that it will not be possible for you to participate in this BPA Energy Efficiency program.
